MONA PLANT® CAPILLARY IRRIGATION SYSTEM

PLANTSAVA 10 L. Tank Dimensions (LxWxH) 39cm x 10cm

Mona Plantsava Irrigation Tanks are an excellent solution for watering plant displays in interior and exterior landscaping projects. Available in a variety of shapes and sizes they can be incorporated into containerised plants to provide water and nutrients at the plant's roots.

Unlike dripper irrigation systems, the Plantsava Irrigation System uses the process of capillary action to feed the plant where it needs water the most- at its roots. The Plantsava Irrigation tanks are available in a variety of shapes of sizes dependant on the application, contact the Swan Water Solutions technical sales team for guidance.
